

Mileage or time passed (whichever comes first)	12,000	24,000	36,000	48,000	60,000	72,000
Or Months:	12	24	36	48	60	72
Or Kilometers:	20,000	40,000	60,000	80,000	100,000	120,000
Check and, if necessary, top off oil level of dual clutch automatic transmission						X
Replace accessory drive belt(s)					X	
Replace spark plugs (#)			X			X
Replace toothed timing drive belt (*)					X	
Change engine oil and oil filter (**)						
Change brake fluid (or every 24 months)		X		X		X
Replace air filter cartridge	X	X	X	X	X	X

( ) Recommend using Midtronics tester to check charge status and, if necessary, recharge battery.

(#) The spark plug change interval is mileage based only, yearly intervals do not apply. The following are essential to ensure correct operation and prevent serious damage to the engine:

- Only use spark plugs of the same make and type which are specially certified for such engines (refer to “Fluids, Lubricants and Genuine Parts” in “Maintaining Your Vehicle” for further information).
- Strictly comply with the spark plug replacement interval given in the maintenance schedule for spark plug replacement.
- Contact your Alfa Romeo Dealer if you have questions.

(\*) Regardless of the distance covered, the timing belt must be changed every 4 years for particularly demanding use (cold climates, city driving, long periods of idling) or at least every 5 years.

(\*\*) The actual interval for changing the oil and replacing the engine oil filter depends on the vehicle usage conditions and is signalled by the warning light or message (if present) on the instrument panel or every 12 months.
